### **Emergency Training Exercise & Increased Emergency Personnel Presence**

Gloucester County Emergency Management, along with fire, rescue, law enforcement and personnel from multiple agencies, will conduct an emergency training exercise on Monday, November 5, 2018 from 7 AM to Noon. Residents may observe an increased presence of emergency personnel and vehicles and emergency response activity on Route 17 and along the T.C. Walker/Route 629 Road loop, as well as in the White Marsh area.

The exercise is to test and drill a coordinated response to a major emergency incident in Gloucester. Due to the interactive nature and sensitivity of the exercise access by the public will be restricted in and around the targeted areas, but traffic will not be impeded or redirected in the impacted areas.
